EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Janaki Davda (Applicant Representative) on January 29, 2008.

The application has been amended as follows:

In the Specification:

On page 16, in line 15-16; delete ", firmware, programmable logic, "

Allowable Subject Matter

2. Claims 1, 3-15, 21, 23-35, 41-43 and 45-55 are allowed over prior art.
3. The following is an examiner's statement of reasons for allowance: Applicant has amended claims to correct previous 101 issues. In addition, for the purpose of examination, the deletion of such embodiments (removing references to the medium being propagation media, etc.) is being treated as an explicit act to remove such embodiments from the scope of the claims."
4. The prior art fail to teach or suggest fairly ***with respect to claim 1***, generating at least one trigger for said event, wherein said trigger is associated with at least one configuration policy, and comparing said configuration policy associated with said trigger with said configuration data associated with said event for which said trigger was generated, and determining whether said configuration policy has been violated based on the comparison, ***with respect to claim 12 and 32***, generating at least one transaction based on said hypothetical network scenario, updating components in a hypothetical network scenario, and rezoning components in said hypothetical network scenario, and rezoning components in said hypothetical network scenario, with respect to claim ***14, 34 and 42***, scanning a network data store for at least one transaction, wherein said transaction includes one of connecting components, adding components, updating components and rezoning components in said network, and using configuration data associated with said event to determine whether a configuration policy has been violated based on transaction results, ***with respect to claim 21 and 41***, generating at least one trigger for said event, wherein said trigger is associated with at least one configuration policy, and comparing said configuration policy associated with said
